Comfort, Security, & Safety

We want your stay to be memorable and enjoyable. Our staff always gives extra thought and attention to anything that contributes to your overall experience. That is why we would like to suggest a few things you might do to help us ensure you and your family's complete comfort and safety.

Please familiarize yourself with the fire safety and evacuation procedures displayed in your room.

Upon arrival

Please refer to the back of your guest room door to locate fire exits and staircases. Please locate the alarm pull stations and the fire extinguisher on your floor. Please find the off button on your air unit. In case of fire, turning off the air unit will prevent smoke from being drawn into your room.

In case of fire

Stay Calm. Pull the nearest fire alarm. If possible, close doors around the fire area. Phone the Service Genie to report the fire. Exit from the building. Take your room key with you.

Smoke

If your room is filled with smoke, fold a wet towel into a triangle and tie it over your nose and mouth. Get on your hands and knees (or stomach) and crawl to the door. Feel the knob. If the knob is hot, do not open. If the knob is cool, open slowly. Take your room key. If the hallway is filled with smoke, stay next to the wall and count the doors as you crawl to the exit staircase. Walk down the exit staircase. If the staircase begins to fill with smoke, return to your room.

If you cannot leave your room

Dial "0". If unavailable, call the fire department @ "9 +911". Wedge a wet cloth under the door and around the doors and vents. Remove the drapes from the windows. Fill the bathtub and sink with cold water for fire fighting. Use an ice bucket or other container. Keep water available to quickly moisten the wet cloths that are keeping the smoke out. DO NOT break window, DO NOT jump. Stay low and continue firefighting until help arrives.

In case of tornados or severe weather conditions

If the need arises and the city's Civil Defense sirens are activated, we will in turn activate the hotel's Fire Alarm System to warn you that immediate evacuation to the lower level will be mandatory. Employees will be stationed throughout the hotel for your assistance. The Hotel will do its best to notify you when the sirens are sounded, by phone, door to door, or by internal loud speaker.
