

EMERGENCY PROCEDURES FOR THE Hilton President Hotel

In the event of an emergency, the following procedures should be followed:

- **Go to the nearest hotel phone and dial 0** (This extension goes to the Front Desk/PBX operator).
- **State your Name, Location and exact Nature of the call (fire, medical emergency, etc.).**
- **Do not hang up the phone, the agent might have questions for the caller.**
- The hotel has 24-hour security that monitors the hotel.
- Both the front and back entrances to the hotel are accessible 24-hours a day; however, you will be required to use your room key card to gain entrance between the hours of 11PM and 6AM.
- In the event of an evacuation, an alarm will sound and will be followed by a message with instructions. Hotel staff will assist with the evacuation order. If you are unsure of where your emergency exits are, please read the fire evacuation procedures on the back of your guestroom door. In other areas of the hotel, follow exit signs to the nearest exit.
- In the event of a tornado warning, an alarm will sound and you will be given instructions. Stay clear of all windows. If you are in a guestroom the safest area is in the bathroom with the door closed, in other areas of the hotel, the closest hallway away from windows is the desired location.
- We offer safety deposit boxes at the Front Desk for valuables. They are complimentary to the guest.

If you should have any questions regarding Security or emergency procedures, please do not hesitate to contact a member of our management staff.

Notes

To Truman Medical Center - West

Trip to Truman Medical Ctr-West
