Fire Safety

There are smoke detectors located in all meeting rooms, service areas, & guest rooms.

Are fire extinguishers on each floor?

Are there manual fire alarms on every guest room floor and meeting room?

Tornado:

The National Weather Service will forecast when conditions are favorable for a tornado and may issue a "Tornado Watch". Once a tornado has actually been spotted or is indicated on radar a "Tornado Warning" is issued. The warning is announced on T.V., radio, and by the civil defense sirens located in the community.

Follow these instructions:

- Remain Calm and Vacate the atrium, restaurant, bar and go to one of the following places:
- The meeting rooms designated "Salons" located on the first floor of the tower section of hotel across from restaurant.. Sit up against wall with your face down and your knees bent, tucked in a tight position.
- Ground floor of the tower section stairwells up against the wall crouched down covering your head and face.
- Your guest room bathroom in the bathtub face down with the bed spread pulled over the top of yourself and the bathroom door shut

How are the announcements made?

The front desk will blow an air horn in the atrium, all guest room floors, and wings of the hotel.
