SkillsUSA[®]
Champions at Work

Newly Revised! *SkillsUSA's Professional Development Program*

The **Professional Development Program (PDP)** helps students develop the employability or soft skills needed for a smooth transition to the work force or higher education. The PDP provides the tools to strengthen school-based learning.

Newly revised in 2008, the program is available in printed workbooks or as an online program with 76 employability skills activities that are covered in six levels of the program. Skills include self-assessment, communications, ethics, conflict resolution, government awareness, time management, career research, job interviewing and more. Activities help meet state standards and the competencies outlined by the U.S. Secretary of Labor's Commission on Achieving Necessary Skills (SCANS).

PDP Online

If you prefer a computer-based curriculum, PDP Online uses the latest technology to teach employability skills. Students can use PDP Online wherever they have Internet access. Teachers can customize any level, omit activities, add classroom work, evaluate progress or provide feedback with the same convenience. This powerful, customizable online resource integrates with your own curriculum and goals. Skills are introduced, developed and reinforced over seven levels. Enrollment and class setup are easy. Most important, PDP Online is a real-world program that gives students the skills and attitudes they need to succeed at school or work. PDP Online covers the same key skills as the printed workbook version: goal setting, community service, customer service, job interviewing, career knowledge, communication skills, teamwork, government awareness, ethics, conflict resolution, customer service, portfolio development, mentoring, networking and more!

PDP Online Starter Kit

Same content as paper workbook (above). *Price: \$5 per license*

PDP Online Levels 1 *Price: \$5 per license*

PDP Online Levels 2 *Price: \$5 per license*

PDP Online Levels 3 *Price: \$5 per license*

PDP Online Levels 4 *Price: \$5 per license*

PDP Online Levels 5 *Price: \$5 per license*

Go to: www.skillsusa.org/educators/pdp.shtml

PDP Materials

Here is a partial list of PDP materials available through the *SkillsUSA Educational Materials Catalog*. For more information, refer to the catalog or visit:

www.skillsusa.org/educators/pdp.shtml.

PDP Instructor's Guide

Now packaged in a CD-ROM, this edition features Instructor's Guide companion materials for the Starter Kit, Level 1, Level 2, Level 3, Level 4 and Level 5. *PDP10 — Price: \$25.95*

PDP Starter Kit Workbook

Before your students begin the PDP program, they can discover personal goals and talents with this exploratory Starter Kit. Completers earn the Discovery Degree (certificate/pin available). *PDP00 — Price: \$5.45*

PDP Level 1 Student Workbook

Self-motivation, cultural diversity and time management are just some of the skills students learn in Level 1. Completers earn the Trainee Degree (certificate/pin available). *PDP01 — Price: \$5.45*

PDP Level 2 Student Workbook

Build on Level 1 with more competencies including customer service skills, team skills and completing a job application. Completers earn the Leader Degree (certificate/pin available). *PDP02 — Price: \$5.45*

PDP Level 3 Student Workbook

See catalog for description. *PDP03 — Price: \$5.45*

PDP Level 4 Student Workbook

See catalog for description. *PDP04 — Price: \$5.45*

SkillsUSA Instructor's Manual for PDP

See catalog for description. *PDP26 — Price: \$5.95*

SkillsUSA Student Workbook for PDP

See catalog for description. *PDP27 — Price: \$5.45*

PDP features:

- Student-driven lesson plans
- Multiple instructional strategies
- Individual or team projects and activities
- Practical, teacher friendly resources!
- End-of-program recognition (certificates or pins)

PDP benefits:

- Delivers skills employers want
- Builds a job portfolio for students preparing to graduate
- Teaches workplace values and employability skills
- Meets SCANS and state standards requirements
- Involves industry in the classroom
- Facilitates teamwork between academic and CTE
- Is easily modified to meet your program needs

New Technical Assessments!

Work Force Ready System

Skill Connect® Assessments

SkillsUSA is known for providing real-life application of skills. In fact, SkillsUSA has been assessing technical skills for more than 40 years. Our current standards were developed in partnership with 1,800 corporations, labor unions, trade associations and businesses. With the **Work Force Ready System**, we can now provide an on-ramp to other professional certifications and pave the way ahead for our future American work force.

The SkillsUSA Work Force Ready System provides assessments for career and technical education that are supported by industry, education and policy leaders. The Skill Connect® Assessment parallels SkillsUSA's successful hands-on, authentic assessment philosophy. The system helps instructors prove the benefit of their programs, and most importantly, helps young people find rewarding careers.

Skill Connect® Assessments

Available in more than 46 unique areas, Skill Connect Assessments offer a reliable evaluation of technical knowledge and skill. They are supported by a comprehensive system that makes administration simple. These assessments are designed to be used for end of unit, end of course or end of program, depending on the design of your program curriculum.

Interactive

Recent advances in media technology have made it possible to deliver online assessments that are much more than electronic versions of a paper-pencil test. Items will be in the form of multiple choice, true or false, fill-in-the-blank, drag-and-drop and hotspot.

Each Skill Connect Assessment consists of approximately 50 items and takes an estimated 60 minutes to complete. Items are delivered randomly from an item bank.

More than 75 percent of the items include media such as images, video, diagrams and interactive displays. The use of media and interactivity, the variety of question types available in LearnMate®, and the use of principles of Universal Design for Learning (UDL) allow Skill Connect® Assessments to assess a broader range of competencies and to assess them more fully than text-only multiple choice items.

Industry-Driven

Our rigorous and educationally sound process captures critical competencies, standards and criteria as defined by industry. Assessments may be used as pre-program, end of program, or as preparation for the industry certification exam. A certificate,

What is the Work Force Ready System?

The Work Force Ready System is the way ahead for students pursuing rewarding careers, helping candidates prove their technical skills and knowledge to potential employers. Our industry-driven assessments for the next generation are part of a comprehensive package:

- **Skill Connect® Assessments — \$5 each for members**
Helping students prove what they can do
- **Skill Point Certificate**
Earned only at the SkillsUSA Championships

earned upon successful completion of a Skill Connect Assessment, is available to print on demand.

Affordable

Designed to be affordable for everyone, the new Skill Connect® Assessments are \$5 per assessment for all SkillsUSA members. They are also available for \$20 each for nonmembers.

Benefits to Your Classroom

The Work Force Ready System helps you meet Perkins IV requirements. Our assessments offer the following benefits:

- Interactive:** Animations allow assessment of a broader range of competencies than paper-based or text-only assessments
- Industry-driven:** Developed by industry experts
- Responsive:** Real-time assessment capability allows immediate grading and feedback for students, teachers and administrators, including printing of a certificate for successful scores
- Diverse:** Assesses employability or technical skills
- Affordable:** Designed with budgets in mind

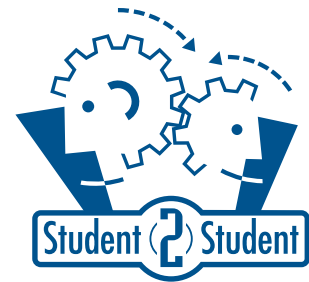

How to Test Pilot or Purchase

View sample questions, purchase assessments, learn more about the system or volunteer to test pilot the assessments at: www.workforcereadysystem.org.

For questions on the Work Force Ready System and its benefits to your school, district or state, contact Bruce Potter at 703-737-0638 or e-mail bpotter@skillsusa.org.

Student2Student Mentoring

SkillsUSA offers **Student2Student Mentoring** as a national mentoring program that provides a way for our members to participate in America's Promise — The Alliance for Youth.

Mentoring is a voluntary relationship between two people: a high school or college student and a younger student (usually one in middle school). The aim is to encourage younger students to explore future careers and make decisions that will lead to marketable skills and productive futures.

Participating in Student2Student starts with identifying a younger group of students to mentor. Next, the SkillsUSA chapter meets with school administrators and asks permission to mentor. Then members start planning activities and set some dates on the calendar. On mentoring day, the fun begins with icebreakers and other activities. After participants have gotten to know each other, they engage in hands-on activities designed to encourage the younger students to think about career options. Activities may include holding a Career Day, conducting job skill demonstrations, making a joint visit to a science or technology museum or even holding a community service project together. The goal is to get the younger students thinking about their future careers as they work with their older mentors and see technical training programs firsthand.

Benefits to Your Classroom

Younger students benefit by having a chance to visit one or more technical programs, see the school they may attend and learn about various careers. Mentors develop self-confidence as they demonstrate what they are learning in their training programs. The school is showcased to the community, and specific training programs can even recruit future students.

Recognition for Chapters

SkillsUSA sponsors a national recognition program based on the Student2Student mentoring program. The purpose is to recognize excellence in student mentoring and to select the outstanding chapter that best exemplifies the purposes and goals of the Student2Student Mentoring Program.

Eligibility

This event is open to all SkillsUSA chapters at high schools or colleges that are participating in a mentoring project with local elementary or middle school students. All entries must be submitted online to the national headquarters by April 1. For details: www.skillsusa.org/educators/mentrecog.shtml.

Awards

The Grand Prize chapter will be invited to attend the national conference and present its winning mentoring program as a part of SkillsUSA University. The Grand Prize chapter will also receive a plaque; a \$500 check for the chapter to use toward expanding next year's mentoring project; a \$500 stipend as assistance for the chapter advisor and at least one student to attend the national conference in Kansas City; and complimentary conference registration.

An "Award of Excellence" chapter will receive a plaque and \$250 to be used toward expanding its SkillsUSA mentoring efforts. All chapters submitting a project description will receive a certificate.

To enter, document your mentoring project and then complete the project description questionnaire online at: www.skillsusa.org/educators/mentoring.shtml.

Resources

For information on the Student2Student program, visit: www.skillsusa.org/educators/mentoring.shtml. On the Web site, you can print an Advisor's Guide, download a presentation and read about mentoring projects done by other SkillsUSA chapters.

For information, contact Heidi Ambrose at 703-737-0615 or e-mail hambrose@skillsusa.org.

For additional mentoring resources, visit the National Mentoring Partnership online: www.mentoring.org.

SKILLSUSA WEEK
FEB. 7–13, 2010

SkillsUSA members are proud to have their own annual week for celebrating our national professional organization. SkillsUSA Week will be celebrated Feb. 7-13, 2010. For resources, ideas on how your chapter can participate, go to: www.skillsusa.org/educators/skillsusaweek.shtml.

The Association for Career and Technical Education (ACTE) is dedicated to the advancement of education that prepares youth and adults for careers. ACTE promotes its own Career and Technical Education (CTE) Week, which is celebrated at the same time. For CTE resources, go to: www.acteonline.org.

Certifying Organization *President's Volunteer Service Award*

The **President's Volunteer Service Award** program is a way to thank and honor SkillsUSA members who demonstrate a commitment to volunteer service. The award recognizes individuals, families and groups who have achieved a certain standard — measured by the number of hours served over a 12-month period or cumulative hours earned over the course of a lifetime.

SkillsUSA is a certifying organization for these awards. Recipients can receive an official lapel pin, personalized certificate of achievement, or a congratulatory letter from the president.

To apply for the award, candidates must document their volunteer activities and the number of hours served. This record of service may be a diary, calendar or timesheet with proof of service documented and verified by agency representative.

Candidates must submit a letter of nomination from the direct supervisor/agency representative working with the candidate, a school administrator, school SkillsUSA advisor or SkillsUSA

state director. Proof of SkillsUSA membership must also be submitted.

Candidates must meet the number of hours designated by the Presidential Volunteer Service Award as follows to reach the bronze, silver or gold levels of service:

- 100-250 hours or more for students ages 15-25
- 100-500 hours or more for adults 25 and older
- 200-1,000 hours or more for groups (two or more people)

For more information on the SkillsUSA process, go to: www.skillsusa.org/students/volsvc.shtml.

If you have questions on the program, contact Heidi Ambrose at 703-737-0615 or e-mail hambrose@skillsusa.org.

More information about the President's Volunteer Service Award Program is available at: www.presidentialserviceawards.gov.

CareerSafe *Online OSHA 10-Hour Course*

SkillsUSA and CareerSafe have joined forces to provide students with fast and affordable **CareerSafe youth safety training** that is endorsed by OSHA. CareerSafe is committed to enabling young people to have a safe and successful entry into the work force by offering them a practical, Web-based course designed specifically for youth workers.

By making this course available, CareerSafe hopes to reduce the more than 200,000 injuries that occur every year among youth workers in this country. Upon successful completion of this 10-lesson course plus a construction or general industry module, the student receives an OSHA 10-hour wallet card. The program covers core topics relevant to basic safety in any workplace, and the card adds a valuable credential that the student can take into the job market.

The cost for the CareerSafe Online OSHA 10-Hour Course plus a construction or general industry module is \$18 per student. Further, for every student who completes the course, a \$1.50 donation will be made to the SkillsUSA Youth Development

Foundation to support other SkillsUSA programs. Learn more about CareerSafe or buy program vouchers for the course at: www.CareerSafeOnline.com. The CareerSafe Online course is also available in Spanish to provide a broader base of workers with the opportunity to learn about safety.

Facts About Youth Safety

Fact

One youth dies every five days in a work-related incident.

Fact

Two hundred thousand youth are injured each year on the job; 77,000 of them require hospitalization or emergency room treatment.

Fact

Youth workers age 16 to 24 are at the highest risk for injury. Their injury rate is double (sometimes triple) that of any other age category.

Dedicated Group *SafetyCommunity.com*

The Web site www.SafetyCommunity.com has created a dedicated safety group for SkillsUSA students and advisors. The group, sponsored by Ansell, was formed to offer SkillsUSA members an opportunity to find safety-training resources and share knowledge with industry professionals. The SkillsUSA group is located at: www.safetycommunity.com/group/skillsusa.

The SkillsUSA group on *SafetyCommunity.com* features a discussion forum for students, faculty, staff and safety professionals to share advice on education, best practices, training and safety. It offers networking capabilities so SkillsUSA leaders can connect with experts in the field, and has links to other Web sites that offer information on the safety industry. News feeds with updated information on safety and industry trends are also available.

Enter the Safety Community Contest

SkillsUSA chapters that participate on the Web site and connect with at least 15 new members (non-SkillsUSA members) can enter the Safety Community Contest.

To enter, participate on the site and post two original blog items related to safety and how it integrates into your technical program and your SkillsUSA chapter. Then, start a discussion or reply to one discussion in the Safety Community forums.

Grand Prize

Five *SafetyCommunity.com* active participants will be selected to receive a \$250 American Express gift certificate.

The sponsor, Ansell, designs, develops and manufactures a wide range of hand and arm protection solutions and clothing.

Calling All Chapters *National Week of Community Service*

SkillsUSA members are known for their community service efforts. The **2010 SkillsUSA National Week of Service** will involve chapters all across the country in a variety of community-based efforts.

As part of their annual program of work, SkillsUSA asks chapters to plan a community service project during the week of May 2-8, 2010. This will help commemorate the founding of SkillsUSA (May 8, 1965). Harnessing the power of our combined efforts will showcase the good work being done by our student members and bring attention to career and technical education and SkillsUSA's value.

To assist you with planning and carrying out this event, SkillsUSA has created a Community Service Guide and customizable media releases, public service announce-

ments and thank-you letters to help generate publicity for your service event.

SkillsUSA will help promote your events if we know well in advance what you're doing.

Advisors should send a brief description of your chapter's events to marketing specialist Danielle Rinker at drinker@skillsusa.org. In return, we'll send your chapter advisor or officer a SkillsUSA logo gift item valued at \$15 to say thanks for keeping us informed.

Resources

Free online resources include a Community Service Guide, sample media releases, sample PSAs, sample thank-you letters and more. To view or download these resources, go to: www.skillsusa.org/events/service.shtml.

NATIONAL CONFERENCE PIN DESIGN CONTEST

Deadline: Feb. 1, 2010

SkillsUSA is sponsoring a **national conference pin design competition** that is open to all dues-paying student members. The winning design will become the official pin for the 2010 SkillsUSA National Leadership and Skills Conference. The pin will be produced by the SkillsUSA Supply Service in a limited quantity for the 2010 conference. Only one winner will be selected. All entries must be submitted to SkillsUSA exactly as directed in the rules below, and all entries become the property of SkillsUSA once submitted.

Awards

The national winner receives:

- Recognition at the national conference
- Commemorative plaque with the pin design incorporated
- A gift prize valued at approximately \$500
- \$200 of SkillsUSA educational materials for the advisor
- Complimentary registration for the national conference

Contest Rules, Materials and Specifications

All entries must include the following words: "SkillsUSA", "NLSC 2010", "Kansas City". All entries to this competition must comply with the published contest rules, materials and specifications, which are available at:

www.skillsusa.org/compete/pindesign.shtml. Previous year's winning designs are also available online.

Submitting Your Design

Create your design according to the above specifications.

When your design is complete and ready to submit, ship it to:

SkillsUSA Pin Contest
14001 SkillsUSA Way
Leesburg, VA 20176

Questions?

For questions, contact Danielle Rinker at 703-737-0636 or e-mail drinker@skillsusa.org. Please include your full name, school and a daytime telephone number.

Visit the Web site for complete contest rules, industry prizes and the latest information on this event:

www.skillsusa.org/compete/pindesign.shtml.

Scholarships *Educational and Travel* *Scholarships for National Medalists*

This listing gives students and instructors an idea of the many scholarship opportunities available through SkillsUSA. All scholarship offers are subject to change. For complete details, go to: www.skillsusa.org/students/scholarships.shtml.

International SkillsUSA Degree

Students who successfully complete the International Degree of the Professional Development Program (PDP) are eligible for a \$1,000 travel scholarship to attend national conference. The deadline is May 1. For more information, contact Marsha Daves at 703-737-0605 or e-mail mdaves@skillsusa.org.

Robert Flint Leadership Award

The elected national high school and college/postsecondary SkillsUSA student presidents are awarded \$1,000 leadership scholarships at the completion of their term.

National Technical Honor Society Scholarships

The NTHS annually awards a \$1,000 scholarship to two high school SkillsUSA members and to two college/postsecondary SkillsUSA members who are also involved in NTHS. For details, go to: www.skillsusa.org/students/nths.shtml.

SkillsUSA Alumni Merit Scholarship

The SkillsUSA Alumni and Friends Association awards two \$500 scholarships to outstanding SkillsUSA members who will be attending a postsecondary training program next school year. For details, go to: www.skillsusa.org/supporters/alumnischolar.shtml.

Robert Flint Student Leadership Development Scholarship

SkillsUSA members with financial needs may be eligible for a Student Leadership Development Scholarship to attend the Washington Leadership Training Institute (WLTI) in September or Officer 101/201 training in June. Nominations can only be made by a state association director. For details, contact your state SkillsUSA office.

SkillsUSA Championships

Following are the scholarships offered through the SkillsUSA national headquarters to winners of the SkillsUSA Championships. Most scholarships are awarded to first-, second- and third-place winners (gold, silver and bronze medalists). In most cases, these scholarships are applied directly to tuition and education expenses. Medalists also receive tools of the trade, software and other awards.

CONTEST/SPONSOR	RECIPIENT	HIGH SCHOOL/COLLEGE	AWARD
