

ABOUT SkillsUSA

SkillsUSA is a vital solution to the growing U.S. skills gap. This nonprofit partnership of students, instructors and industry ensures America has the skilled workforce it needs to stay competitive. Founded in 1965 and endorsed by the U.S. Department of Education, SkillsUSA serves more than 300,000 member students and instructors each year in middle schools, high schools and colleges, the majority STEM-related. This diverse talent pipeline covers 130 technical, skilled and service occupations. More than 600 corporations, trade associations, businesses and labor unions actively support SkillsUSA at the national level.

OUR PROGRAMS

SkillsUSA programs are integrated into career and technical education through a framework of personal, workplace and technical skills grounded in academics. These three components comprise the SkillsUSA Framework, which serves as the blueprint for student success centered on industry demand. The framework builds the foundation for relevant and intentional student learning and leadership development. Innovative programming, quality instruction and industry partnerships focus on equipping students with the necessary leadership, technical, communication and management skills to succeed at work and in life. When it all comes together, students have the opportunity to explore and experience high-demand, high-skilled, high-wage careers. Together, we address the skilled labor shortage while placing our members on a pathway to a better life.

OUR COMPETITIONS

Local, state and national championships, designed and judged by industry, set relevant standards for career and technical education and provide needed recognition to its students. SkillsUSA also offers technical skill assessments and other workplace credentials.

THE SkillsUSA FRAMEWORK SUPPORTS A BALANCED PROGRAM

The SkillsUSA Framework supports the mission of the organization “to empower members to become world-class workers, leaders and responsible American citizens.”

WHAT IT DOES

- Provides a common language for students to articulate what they gain from SkillsUSA participation to employers, school administrators, parents and other students
- Assesses student skill development along a learning continuum of awareness, demonstration and mastery
- Creates a vision for SkillsUSA programs at the local, state and national levels to ensure quality student-led experiences that build skills in all members

WHY IT WORKS

- Empowers every student to achieve career success
- Delivers a skill set demanded by business and industry but lacking in many employees today
- Ensures that every student member receives a consistent and specific skill set
