

Total Participation Plan

The Total Participation Plan (TPP) is for High Schools and Middle Schools and the pricing includes students, professionals and a required educational resource cost. See the chart below to calculate the total cost. A single school or multiple schools in a district or state can be on the same plan. Use the total number of student members between multiple schools for the student affiliation cost. Each school must meet the minimum number of members found in the Total Participation Plan Agreement section.

NOTE: You must have a **school administrator username** in the membership registration system to create the affiliation agreement online. Contact our Customer Care Team <CustomerCare@skillsusa.org or Patty Duncan at pduncan@skillsusa.org to set-up an admin username.

Total Participation Plan Agreement

Be sure your school can comply to all the terms and conditions before completing the agreement online.

By creating and submitting an affiliation plan online, you understand and agree to:

- register all eligible students and professionals within the SkillsUSA website. All students must be joined as members if they are enrolled in a career and technical class that SkillsUSA serves and is allowable by state policy.
- register at least 25 students and at least one professional for every 100 students. Your school(s) should ensure member names are correct and not duplicated. Once members are joined in the system drops and cancellations are not allowed. Your school is liable for paying for all registered members including duplicate member names.
- use the TPP educational resource credit to order and implement the Career Essentials: Experiences, Career Essentials: Assessments, CTE Knowledge and Framework Certification Bundle or order eligible educational resources from the SkillsUSA Resource online store. Once a product type is selected on the TPP agreement, your credit can only be used towards that product type during the year.
- ensure that instructors and administrative staff understand SkillsUSA programs and the proper use of SkillsUSA materials. You agree to implement or arrange for any necessary training for affiliated professionals and will contact the state or national headquarters and arrange for the necessary training.
- implement the SkillsUSA program to all eligible trade, industrial, technical and health sciences students and offer opportunities for eligible students to compete in local, state or national skill and leadership and skills competitions and participate in leadership training and conferences through SkillsUSA. If your school does not register members or take part in SkillsUSA programs or events after the agreement is signed, you understand your school is still liable for payment.
- professionals receive incentives, affiliation mailings and critical contest updates via email, and these may be missed if your school does not register professionals by the specified deadlines. Students must be registered within the SkillsUSA website by your states membership deadline to qualify for SkillsUSA competitions, scholarships, and programming.
- this is an institutional affiliation; therefore, all benefits are provided only to individuals registered as part of this affiliation. The affiliation and all the benefits cease immediately once an individual departs the institution for any reason.
- affiliation pricing includes student, educational resources and professional affiliation. I agree that once I sign and submit the affiliation plan that my school will pay the appropriate student, educational resource and professional affiliation based on the agreement. Members that are joined over the agreed student or professional count are subject to added billing charges. Billing may take place during the year or after the national March membership deadline. There are no refunds or credit given for members not joined that were included in the estimate member
