Membership Benefits

Professional Member Benefits

Our goal is to support SkillsUSA instructors at a higher level than ever before by delivering curated content, tools and resources that are easy to implement in any learning environment. Our resources and chapter models offer instructors great flexibility on how to integrate learning into the CTE curriculum. Becoming a professional member of SkillsUSA is one of the best ways to demonstrate to students the importance of joining a professional organization and the opportunities that membership will provide.

SkillsUSA Championships Technical Standards —

The official rules and guides for every competition, including required skills, clothing and equipment lists and academic connections.

Framework Integration Toolkit —

Ready-to-use lesson plans, activities and videos that help you embed SkillsUSA Framework skills into your CTE program.

Program of Work Toolkit —

A collection of activity guides, classroom resources and videos that help you plan, launch and deliver effective chapter activities throughout the year.

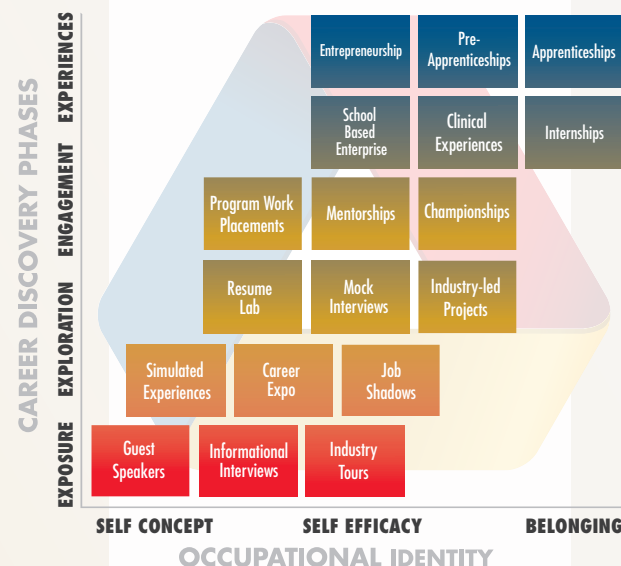

Professional Development E-Courses — On-demand training designed specifically for SkillsUSA advisors to strengthen classroom impact and chapter leadership.

Middle School Resources —

Tools like Middle School Momentum and Xplore introduce younger students to career pathways and the SkillsUSA Framework through engaging activities and lessons.

Work-Based Learning Toolkit —

Step-by-step resources that make it easier to connect classroom instruction with real-world experiences, while saving time and engaging employers.

Student Member Benefits

SkillsUSA student members gain hands-on experiences, leadership opportunities and resources that build the foundation for career and life success.

SkillsUSA Championships

Technical Standards — Guides for every competition with detailed skill requirements, expectations and academic connections to help members prepare for success.

Essential Element Self-Assessment —

A simple tool that helps members evaluate their personal, workplace and technical skills while setting goals for growth.

SkillsUSA Framework Essential Element Modules —

Seventeen short, self-paced modules that help students build the employability skills most valued by industry.

CHARGE: Officer Training Series —

A video and activity series that equips chapter officers with the knowledge and confidence to lead their local chapters effectively.
