

Sample Morning Announcement

Make this announcement on Monday, Feb. 1, 2027

Be sure to personalize the announcement to match your SkillsUSA chapter's actual plans for the week (you don't have to conduct all activities or hold them on the specified day).

This week — February 1 through 5 — our SkillsUSA chapter is celebrating SkillsUSA Week as part of Career and Technical Education Month.

As a national student organization, SkillsUSA helps career and technical students like me become career-ready through the development of personal, workplace and technical skills utilizing the SkillsUSA Framework.

Did you know SkillsUSA has more than 444,000 SkillsUSA members nationwide and is respected by higher education and employers when they view it on your résumé or in your job portfolio? SkillsUSA's helps every student excel. This week we will hold several events to recognize our chapter, teachers and business partners who support the program:

- Today is **Mission Monday**. We will recognize members, advisors and champions who live the SkillsUSA mission every day.
- Tomorrow is **Tools for Good Tuesday**. We will focus on using our skills to give back to our school or community.
- Wednesday, February 3 is **Real-World Wednesday**. On this day, we connect students with real industry professionals and explore career pathways through SkillsUSA Pathful!
- Thursday, Feb 4 is **Think Big Thursday**. We will amplify the skilled trades through local advocacy and public relations.
- Friday, Feb 5 is **Future Friday**, a day in which we celebrate your future! Wear SkillsUSA gear or dress in your future career attire to showcase your goals.

Watch our social media this week for more details. SkillsUSA is a great way to build your skills and your network while you are still in school and help you connect to a future career! If you want to be part of the fun and join SkillsUSA, please see [Name, Room Number] or contact any member.
